PROFESSIONAL SUMMARY

Information technology graduate and software developer experienced in full-stack web development using modern tools like React, Laravel, and SQL. Experienced in delivering client projects ranging from e-commerce platforms to custom 3D web tools, alongside a practical background in system administration and technical support. Eager to bring strong technical execution, clean coding, and problem-solving skills to a dynamic tech team in Dubai.

TECHNICAL SKILLS

• **Programming & Frameworks:** C, C++, Java, C#, Python, JavaScript, React.js, Vue.js, Tailwind CSS, Bootstrap, Node.js, Laravel, A-Frame, Three.js

• **Databases & Backend:** SQL, PostgreSQL, Supabase, Java RMI, RESTful APIs, Database Management

• **Developer Tools & OS:** Git, GitHub, VS Code, Linux Administration (Kali Linux), Windows Server, Microsoft Windows 10 & 11

• **Technical & Digital Skills:** UI/UX Design, Data Analysis, Software Diagnostics, Short-Form Content & Video Editing (TikTok, Reels)

WORK & PROJECT EXPERIENCE

ERP System Developer (Part-Time Contract) | Full Stack Developer
October 2026 – Present | *Freelance*

- Assist in the development and improvement of a customized Enterprise Resource Planning (ERP) system based on the client's business requirements.
- Develop and maintain system features, forms, dashboard, and data management functions.
- Work with databases to organize, store, retrieve, and manage business information.
- Coordinate with the client to gather requirements, provide progress updates, and implement requested changes.
- Provide ongoing technical support and maintenance throughout the development process.

Accounting Clerk (Financial Management Service) | Caraga State University
February 2026 – October 2026 | *Philippines*

- Managed administrative records, Purchase Orders, Disbursement Vouchers, and payroll document routing.
- Verified financial compliance, Certificate of Availability of Funds (CAF), and government remittances (GSIS).

Full Stack Developer (Internship) | Caraga State University (OCID)
June 2025 – September 2025 | *Butuan City, Philippines*

- Architected and deployed a centralized Course Management System for the Office of Curriculum and Instructional Design (OCID) using React.js, Tailwind CSS, Laravel, and PostgreSQL.
- Designed responsive, accessible frontend interfaces and developed robust backend REST APIs for encoding undergraduate/graduate course data across multiple university departments.
- Implemented role-based administrative authentication and course mapping workflows.

3D Web-Based House Planning Builder (Client Project) | Lead Developer
November 2025 – March 2026 | *Freelance*

- Developed an interactive browser-based 3D house planning tool allowing real-time layout design, furniture placement, and automated cost calculation.
- Engineered smooth camera controls and 3D object rendering using Three.js and A-Frame.

- Integrated Supabase for real-time state synchronization, user authentication, and scalable cloud storage.

Front End Developer | E-Commerce Client
December 2024 – January 2025 | *Freelance*

- Built a fully responsive, high-converting e-commerce web platform using Bootstrap and CheckoutChamp.
- Customized product landing pages and checkout flows to match branding objectives while integrating payment gateways.
- Optimized client site for fast mobile load times and improved conversion UI/UX.

Software Contractors / Developer | Direct Clients
August 2022 – September 2022 | *Freelance*

- Delivered custom software systems following complete software development lifecycle (SDLC) practices including requirements gathering, coding, unit testing, and maintenance.
- Built custom client applications such as a distributed school enrollment platform (Java RMI & Laravel) and C++ inventory management systems.

IT Support & Technician | PCCD (PC Central Depot)
Feb 2019 – May 2021 | *Philippines*

- Provide technical explanations and specifications of computer hardware and software to clients/customers.
- Perform repairs, upgrades, and maintenance on office and client laptops and dekstop computers.
- Diagnose and troubleshoot hardware and software issues.

EDUCATION

Bachelor of Science in Information Technology | Caraga State University
2021 – 2026 | *Philippines*

- Academic Scholar (2021–2022)
- Champion, DICT Hack4Gov Hackathon (CarSU Cyber Ninja - 2024)
- 1st & 3rd Placer, DICT Hackathon Competitions (2023)

CERTIFICATIONS & KEY ACHIEVEMENTS

- Cybersecurity Course Credential – Cisco Networking Academy (2024)
- Machine Learning & Game AI – Kaggle (2025)
- JavaScript, HTML, & CSS Certification Accomplishments – SoloLearn (2024)
- Certificate of Thesis Research Presentation (SCII-COM 2026) – Caraga State University
- National Certificate II (NC II) Passer – Computer System Servicing
